

## Conti Hybrid

Versatility, mile after mile after mile.

GENERATION 3. DRIVEN BY YOUR NEEDS.

### Conti Hybrid HS3/HD3/HT3 (22.5")

The new Conti Hybrid tire range actively helps meet today's unprecedented demand for greater efficiency. With an impressive 20 % increase in mileage performance and up to 6 % improved fuel efficiency, the new Conti Hybrid 22.5 sets standards. This tire range is ideally suited to the intensive challenges of the heavy-duty segment. The new tires have been specifically designed to handle the demands of both regional transport and motorway use.

Greatly improved tire life coupled with outstanding fuel efficiency ensures maximum economic efficiency for fleet operators, mile after mile after mile.

### ContiLifeCycle inbuilt

All Generation 3 Conti Hybrid tires have been further improved in terms of retreading capability. The latest cord technology on all axles and the new belt skim compound enhance the performance of the proven 4-ply triangular belt package while new regrooving indicators make regrooving faster and easier.

The Hybrid tire line is perfectly tailored to our ContiLifeCycle.

## GENERATION 3. DRIVEN BY YOUR NEEDS.

## Conti Hybrid HD3

— Conti Hybrid HD3 — Compared to predecessor 315/80 R 22.5

## Conti Hybrid HT3

— Conti Hybrid HT3 — Compared to predecessor 385/65 R 22.5

### Product highlights

- › **Plus Volume Pattern:** narrowed groove widths result in increased pattern volume which improves wear resistance to guarantee high mileage performance
- › **New contour:** the new shape ensures better pressure distribution, providing more even wear for high mileage performance
- › **Wet performance pocket sipes:** a new siping technology with full-depth sipes enhances water displacement and improves wet performance over lifetime
- › "1+5" cord for improved technical retreadability

All Conti Hybrid steer axle tires are provided with the Continental Visual Alignment Indicator (VAI™).

### Regrooving recommendations

Size	Depth (mm)	Width (mm)

12 R 22.5	3.0	8

### Product highlights

- › **Block design with 3d sipes:** the new block design decreases wear by reducing the ground contact area for significantly increased mileage performance. 3D sipes strengthen the stability of the block geometry despite an increased number of grooves. Thanks to a higher number of gripping edges, the drive axle traction is improved.
- › **Hybrid drive compound:** the newly balanced polymer rubber tread compound is specifically designed to increase mileage and ensure off-road performance
- › **Rolling resistance optimized sidewall compound:** the optimized rubber compound in the sidewall helps improve the fuel efficiency
- › "1+5" cord for improved technical retreadability

All Hybrid drive axle tires are provided with the Three Peak Mountain Snow Flake (3PMSF)<sup>1)</sup> symbol and M+S marking.

 "Snow tire" means a tire [...] designed to achieve in snow conditions a performance better than a normal tire [...]. Source: Economic Commission for Europe of the United Nations (UNECE), R117

### Product highlights

- › **Hybrid trailer compound:** The Conti Hybrid HT3 uses new rubber compounds with less heat development in both tread and sidewall. The tread polymer improves rolling resistance and increases service life while the optimized sidewall compound improves the fuel efficiency of this trailer axle tire.
- › **Improved rib pattern:** the enhanced pattern structure in the rib area offers more mileage performance and better fuel efficiency
- › "3+8" cord for improved technical retreadability
