MultiGrip

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process. • besserer Grip dank flexibler Schulterbereiche

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

TractionSkin

TractionSkin, a revolutionary new micro-rough tread surface, virtually puts an end to tire break-in. This is possible due to a new mold coating technology which eliminates the need for tire-release agents.

ZeroDegree

0° steel-belt construction guarantees excellent stability at high speeds.

Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
