

NEW TKC 70

New TKC 70 combines the best of the TKC 80 off-road tire and ContiTrailAttack 2 on-road Adventure tire.

- Brand new Conti-tire with rugged off-road capability and a balanced street performance.
- Newly developed trail-tire with a radial and diagonal design constructed for off-road use with a speed index up to 240 km/h – all radial tires are handmade in Germany.
- TKC 70 is positioned for light to medium off-road use with extraordinary street performance.
- Uniquely constructed tread block pattern makes the TKC 70 quiet and stable on the road while still providing good off-road capability.
- Agile on streets and safe on gravel roads.
- MultiGrip: Continentals own semi-dual compound technology allows different levels of hardness on the central tread and shoulder area (more mileage and improved grip).
- RainGrip: New compound with outstanding grip in wet weather conditions and very short warm-up phase.
- The 0° steel belted construction guarantees high stability and a low kickback.

18"	4.00 - 18 M/C	64	T	TL M+S	02 40 248	from 2nd quarter of 2015
	150/70 R 18 M/C	70	T	TL M+S	02 44 387	NEW

* Speed index V (up to 240 km/h) despite M+S label

MultiGrip-Technology

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process.

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

0° steel-belted construction

0° steel-belted construction guarantees excellent stability at high speeds.

RainGrip

New „Wet Grip“ compound for superior wet grip and higher mileage.

Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
