

ContiTrail **ATTACK 2**

Specially developed road-suitable enduro tires for big and powerful dual-sport motorcycles.

- Better grip even in the wet combined with excellent mileage on long trips, all thanks to innovative compounding technology.
- A stronger carcass along with a progressive tread pattern design on the front wheel ensures increased precision and optimized wear behavior.
- TractionSkin ensures extremely safe and short run-in time.
- A 0° steel belted construction on the rear wheel for enhanced stability and comfort even at high speeds and with large payloads.
- Original equipment 2013 KTM 1190 Adventure, KTM 1190 Adventure R and BMW R 1200 GS.

Inch	Size	LI	SI	TL/TT	Article-No.	Remarks

F = Is primarily used on BMW models
 K = Is primarily used on KTM models
 Z = No special area of application

MultiGrip-Technology

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process.

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

TractionSkin

TractionSkin, a revolutionary new micro-rough tread surface, virtually puts an end to tire break-in. This is possible due to a new mold coating technology which eliminates the need for tire-release agents.

0° steel-belted construction

0° steel-belted construction guarantees excellent stability at high speeds.

RainGrip

New „Wet Grip“ compound for superior wet grip and higher mileage.

Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
