

New: ContiMove365. The All-Season Tire with M+S Rating for Scooters

- **M+S designation allows use in winter in accordance with German road traffic regulations (StVO)**
- **Deep sipe pairs ensure grip on wet and snow-covered roads**
- **Outstanding water dispersion due to wide drainage grooves**
- **Dynamic and comfortable driving even in the summer months**

Munich/Korbach, Germany, July 2013. Continental is presenting its new all-season ContiMove365 scooter tire. ContiMove 365 achieves an astonishing balancing act between summer and winter tires with a particularly innovative tread design. Pairs of deep sipes provide a safe grip – also on snow-covered roads. The wide drainage grooves guarantee optimal water displacement to ensure control of the scooter even in heavy rain.

With its M+S designation, the Continental tire is officially approved for winter use in compliance with German road traffic regulations.

The ContiMove 365 also comes up trumps in fine weather, too, with its superb performance in dry conditions. Not only does it keep up a sporty pace, but its trendsetting silica compound provides excellent grip – even without lengthy warm-up times. Since scooters are mostly used for short distances, an impressive performance on a cold run is a crucial factor for buyers.

On balance, the ContiMove365 is a veritable all-rounder: not only are its all-season features impressive, but it is also easy on the environment and on the driver's budget! Rolling resistance in the current generation of tires has been optimized, which reduces fuel consumption. ContiMove365 is available in all the usual sizes, enabling as many scooter drivers as possible to take advantage of the new tire.

The new ContiMove365 impressively combines sporty and comfortable handling performance – all-year round.

ContiMove365 sizes:

3.50 – 10 M/C 59 M TL

100/80 – 10 M/C 53 P TL

120/70 – 10 M/C 54 M TL
