Note: Rim listed first is the measuring rim. Minimum Dual Spacing calculated without chains. * - ECE Certified # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Applications: Long haul/Regional over the highway trailer use.

Advanced application-optimized compound adds up to significant improvements in rolling resistance and mileage.

Narrowed groove widths result in increased pattern volume which improves wear resistance to provide high mileage performance.

Low rolling resistance sidewall compound used to reduce heat through friction elimination.
