Note - Rim listed first is the measuring rim. Minimum Dual Spacing calculated without chains. \* - ECE Certified # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 01 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

**Deep tread and low void design** ensures long removal miles.

Heavy siping provides **numerous griping edges** for excellent traction on wet roads.

**Open shoulder tread design** for increased traction in snow.

**Increased footprint** contact area delivers superior traction and stability.

**All season compound** to deliver excellent traction in all weather conditions without sacrificing removal miles.

**Applications:** Drive axle tire for extreme weather conditions.
