

Take the turn to robustness.

The new Conti Scandinavia HS3 ED

- › Designed for severe applications such as timber transport or mining
- › Outstanding traction in wintry road conditions thanks to full-width sipes
- › Superb off-road mileage performance even on forest floor and gravel
- › Pattern optimized for all-year use: 1st half of tire life is optimized for great winter grip, 2nd half optimized for low wear in summertime

The extra duty
steer axle tire

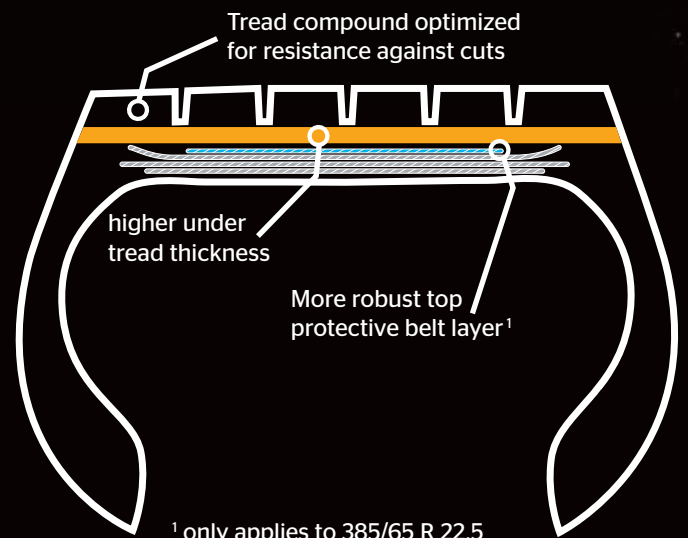

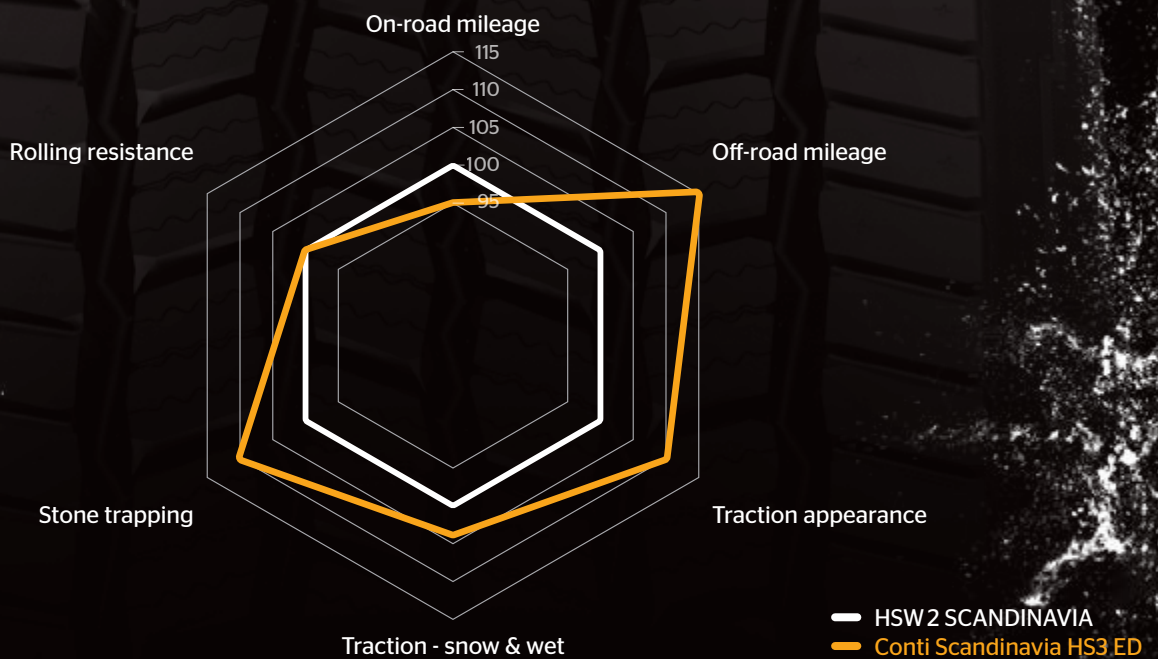

Conti Scandinavia HS3 ED

The extra duty steer axle tire.

 Chamfered blocks for improved resistance to stone damage
 Zig-zag grooves for excellent winter traction and better mud/snow ejection
 Sinusoidal sipes for optimal grip in the wet and on snow
