

Off-Road For Severe Service & Maximum Durability

Excellent Traction // Hours of Service // Cut/Tear Resistant // Casing Durability

Engineered for your application. Tires for Off-Road and Severe Service use are designed to support construction, mining, logging, and other applications where vehicles travel across challenging surfaces strewn with rocks, nails, and debris. Tires are optimized for durability and high removal mileage, as well as cut-and-tear resistance and traction.

IMPORTANT NOTE: Tire Products are now classified by route. Product details are subject to change, please visit our website or contact your local sales representative for the most up to date information.
