

# Digital Tire Monitoring.

## Anytime. Anywhere.

ContiConnect™ Live – get tire information regardless of the vehicle's location.

Get all the information you need about the tire condition of your trucks and trailers. Fleet managers gain highly accurate temperature and pressure data from inside the tire as well as mileage and tread depth prediction options. The information is available in real time and provides unprecedented convenience and flexibility.

### Your Business

Your vehicles are out on the road, and some trailers are even left unhooked. How to control the tire pressure of all your vehicles? Get to know the intelligent tire management solution ContiConnect™ Live to ensure road safety, low maintenance costs, and fuel savings.

### Our Solution

The solution can transmit data regarding pressure, temperature and mileage to your web portal. Monitor your trucks and even freestanding trailers in real time on your PC, tablet, or smartphone – no matter where they are.

### Your Benefits

React immediately to urgent situations thanks to 24/7 real-time tire monitoring. Check exactly where your truck or trailer is. The battery-powered units ensure data transmission for four weeks and provide you with GPS information, mileage, pressure and temperature data.

# How it works

## Data collection

ContiConnect™ Live is accessible either via the ContiConnect Driver App with bluetooth dongle or the Continental Telematic Unit.

## Data transmission

ContiConnect™ Live transmits real-time sensor data over-the-air to the Continental backend.

## Data stream

All data are displayed in the drivers' cabin when using the bluetooth dongle and transmitted to the Continental backend as well.

# Your highway to the cloud
