## Our Masterpiece in Touring-Sport.

Gran Turismo (GT) version: easy handling and optimized tire life for heavy touring motorcycles.

- TractionSkin, the revolutionary micro-roughness of the tread optimizes the mechanical adhesion and realizes the safest, fastest running-in time in the market.
- MultiGrip Technology improves mileage by wear resistant central tread area and safety in curves by higher grip in shoulder area.\*
- Dynamic-Ride-Technology improves handling and control of your bike by using patented steel cord construction and a unique contour.\*

### MultiGrip-Technology

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process.

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

### TractionSkin

TractionSkin, a revolutionary new micro-rough tread surface, virtually puts an end to tire break-in. This is possible due to a new mold coating technology which eliminates the need for tire-release agents.

### 0° steel-belted construction

0° steel-belted construction guarantees excellent stability at high speeds.

### Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
