MultiGrip-Technology

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process.

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

0° steel-belted construction

0° steel-belted construction guarantees excellent stability at high speeds.

Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
